

Active Ingredients:
IVERMECTIN 10mg/mL
CLORSULON 100mg/mL

VETMEC F

BROAD SPECTRUM ANTIPARASITIC CATTLE INJECTION

Treat and Control all in the one injection:
• WORMS • FLUKE • LICE • MANGE • TICKS

VETMEC F is effective against sensitive strains of the following adult and immature parasites.

GASTROINTESTINAL ROUNDWORMS:

Barbers Pole Worm (*Haemonchus spp.*)
Small Brown Stomach Worm (*Ostertagia ostertagi*) (including third and fourth stage larvae and inhibited immatures)
Small Intestinal Worm (*Cooperia spp.*)
Stomach Hair Worm (*Trichostrongylus axei*)
Black Scour Worm (*Trichostrongylus colubriformis*)
Hookworm (*Bunostomum phlebotomum*)
Large Bowel Worm (*Oesophagostomum spp.*) plus adult:
Thin Necked Intestinal Worm (*Nematodirus spp.*)
Intestinal Threadworm (*Strongyloides papillosus*)
Whipworm (*Trichuris spp.*)

LUNGWORM (*Dictyocaulus viviparus*)

ADULT LIVER FLUKE (*Fasciola hepatica*)

LICE (*Linognathus vituli*, *Haematopinus eurysternus*, *Solenopotes capillatus*) Aids in the control of Biting Lice (*Bovicola bovis*)

CATTLE TICK (*Boophilus microplus*) including organophosphate, synthetic pyrethroid and amidine resistant strains. Maximum tick efficacy is achieved 4-5 days after treatment. Engorged female ticks that drop from cattle in the initial days after treatment may lay viable eggs. This should be taken into account when planning a strategic tick control program.

MITES (*Sarcoptes scabiei var. bovis*)

ADULT EYEWORM (*Thelazia spp.*)

WITHHOLDING PERIODS:

MEAT: DO NOT USE less than 28 days before slaughter for human consumption.

ESI: 42 Days.

MILK: DO NOT USE in cows, which are producing or may in the future produce milk or milk products for human consumption.

Liveweight	Dose	500mL treats
Up to 100kg	2mL	250
101-150kg	3mL	166
151-200kg	4mL	125
201-250kg	5mL	100
251-300kg	6mL	83
301-350kg	7mL	71
351-400kg	8mL	62
401-450kg	9mL	55
451-500kg	10mL	50
501-550kg	11mL	45
551-600kg	12mL	41
601-650kg	13mL	38

LIVER FLUKE

Use the one product for effective treatment and control of liver fluke on your property at the same time as treating for worms and ectoparasites such as lice, mange and ticks.
