

vetmec LV

plus Selenium Oral Drench for Sheep

Vetmec LV is effective against a broad range of parasites in sheep.

Abamectin 2.0 g/L Selenium 1.0 g/L

Another quality 'mectin product direct to the farmer from **CHEMVET AUSTRALIA.**

- 1. Abamectin** The active ingredient Abamectin is a very effective 'mectin. Abamectin drenches have been shown to remain effective for a time following the emergence of resistance to ivermectin in sheep.
- 2. Low Volume** Convenient, user friendly and "treats more for less". Treat 2000 50kg sheep per 10L drum.
- 3. Selenium** With its' addition, Vetmec LV treats and prevents illthrift due to Selenium deficiency in sheep.

Vetmec LV is effective against the following adult and immature worms.

- Barbers Pole Worm (*Haemonchus contortus*)
- Small Brown Stomach Worms (*Ostertagia spp*)
- Black Scour Worms (*Trichostrongylus spp*)
- Small Intestinal Worms (*Cooperia spp*)
- Thin Necked Intestinal Worms (*Nematodirus spp*)
- Large Bowel Worm (*Oesophagostomum venulosum*)
- Lungworm (*Dictyocaulus filaria*)

Vetmec LV is effective against nasal bot and itchmite
Vetmec LV treats and prevents selenium deficiency
