

VETMEC BODYGUARD POUR-ON® LOUSICIDE FOR SHEEP

35g/L IMIDACLOPRID

For the control of susceptible body lice *Bovicola ovis* on shorn sheep up to 7 days off-shears and unshorn lambs up to 2 months of age. Protects sheep against re-infestation with lice for 4 weeks after treatment when applied within 24 hours of shearing.

BENEFITS

- > Knockdown, pour-on lice treatment – kills lice fast (including strains resistant to other chemicals)
- > 4 weeks residual protection!
- > Flexible - can be applied up to 7 days after shearing
- > Safe and effective to use on unshorn lambs up to 2 months of age
- > Rainfast – rain before or after treatment
- > High volume dose for better coverage and spread
- > No need to keep sheep penned after application
- > Easy application using a Chemvet Magnum T-Bar Applicator – Draw-off tube with 6 M hose available – treat the whole race straight from the Drum without need for backpack!
- > May be used in conjunction with worm control drenches and at the same time as vaccination
- > Contains a blue dye to identify treated sheep

WITHHOLDING PERIODS:

MEAT: DO NOT USE less than 21 days before slaughter for human consumption.

MILK: DO NOT USE on ewes which are producing or may in the future produce milk that may be used or processed for human consumption.

WOOL: DO NOT USE less than 6 months before shearing or fibre collection.

ESI: 63 Days
